

DEFEND THE INFORMED GROWTH ACT

Oppose LD 1962

LD 1962 is a proposed amendment that would water down the **Informed Growth Act (IGA)**.

IGA is an important law, passed last year, that ensures local decision makers and citizens know the economic, environmental and community impacts of a proposed big box retail store before permitting.

LD 1962 would make the IGA optional by allowing municipalities to opt-out.

Act today to support:

- **Sustainable Economic Growth**
- **Good jobs & corporate accountability**
- **Environmental Protection**

After saying your name and who you are calling for, you can say:

"LD 1962 weakens the Informed Growth Act and eliminates one of its greatest strengths: the balance between local control and a regional approach to planning and development.

Please vote no on L.D. 1962 so ALL Maine communities these important tools for informed growth. "
